

8570 Vehicle-Mount Computer - Freezer

FEATURES

- Engineered to overcome cold storage (-30°C/-22°F) challenges in condensing environments: window fogging, display failures and internal corrosion
- Compatible with Windows 98/2000, MY-T-Soft (English) and other leading pen-based software
- Full range of computing flexibility and functionality supports key open architectures and integrates seamlessly with wireless LAN solutions
- Rugged design meets NATO military specifications for shock, vibration and operating conditions. Resists condensation, rain and dust penetration and low-pressure spray
- 802.11b standard compatibility provides seamless integration with Teklogix wireless backbone and terminals ensuring interruption-free roaming
- High-resolution screen ideal for dimly lit refrigerated warehouses; hi-bright option counteracts outdoor glare. Touch operation ideal for gloved workers

Take communications into the deep freeze

TOUCHSCREEN TABLET ENGINEERED FOR FREEZER APPLICATIONS

The 8570 Wireless Client/Server Vehicle-Mount Computer for freezer applications puts wireless supply chain management right where the data is – even throughout cold storage facilities and icy yards and ports. This rugged, colour touchscreen computer is compatible with the leading pen-based software solutions and standard off-the-shelf applications. And with up to Pentium III processing power, it gives mobile workers the data capture and management tools to make rapid decisions regarding receiving, put-away, replenishment, picking, shipping, and container and cargo tracking.
